Keynote Presentation

MindUP™: An Experiential SEL Program from the Goldie Hawn Foundation

Dr. Charlene Myklebust, PsyD

The Goldie Hawn Foundation is a not-for-profit organization created in response to the global epidemic of childhood aggression, anxiety, depression and suicide. Based firmly in neuroscience, MindUP™ gives children the knowledge and tools they need to manage stress, regulate emotions and face the challenges of the 21st century with resilience. To date, MindUP™ has trained over 150,000 teachers in 12 countries and impacted over 6 Million children. MindUP™'s signature program is an acclaimed classroom-based curriculum, spanning pre-school through middle school/ junior high. The program may also be used with high school students with a few accommodations. Published by Scholastic, this 15-lesson series is based on four pillars: neuroscience, social-emotional learning (SEL), positive psychology and mindful awareness. These lessons work together to build awareness and self-regulation that increase children's academic performance, self-control, empathy, and optimism.

Participants will:

1. Review the evidence supporting social emotional learning (SEL) programs and the significance of a Collaborative for Academic and Social Emotional Learning (CASEL) endorsement

2. Learn about the foundational principles of MindUP™ with discussion about how school social workers can work with teachers to implement MindUP™ in the classroom

3. Experience the MindUP™ curriculum through interactive learning examples related to tasting, smelling, seeing, listening and movement

4. Develop an acquaintance with how MindUP™ supports children's acquisition of skills to learn about their brains, recognize and manage emotions, develop concerns for others, make responsible decisions and maintain positive relationships

5. Learn how to use MindUP™ to achieve your goals as a school social worker through tiered interventions
